

国際学会発表

1. Nakagawa H, Groothuis DP, Blasberg RG: Effect of intracarotid hyperosmolar infusion on brain tumor capillary permeability. The thirty-fifth annual meeting of the American Academy of Neurology, San Diego, CA, USA, 1983,4.
2. Nakagawa H, Groothuis DP, Blasberg RG: Dexamethasone reduces brain tumor extracellular space and capillary permeability. 36th Annual meeting of the American Academy of Neurology, Boston, MA, April, 1984
3. Blasberg RG, Nakagawa H, Groothuis DP, Patlak CS: The extracellular space and spread of edema fluid in brain tissue adjacent to tumors is reduced by dexamethasone. 36th Annual meeting of the American Academy of Neurology, Boston, MA, April, 1984
4. Nakagawa H, Blasberg RG, Fenstermacher JD: Dexamethasone reduces brain tumor extracellular space and capillary permeability and convective spread of edema fluid: Implication for Diagnosis and Therapy. 6th International Symposium on Brain Edema, Tokyo, November 7-10, 1984 (BEST '84)
5. Fenstermacher J, Yen M-H, Wright D, Nakagawa H, Blasberg R, and Patlak C: Effects of Dexamethasone on local blood-brain transfer of AIB and RISA in traumatic cerebral edema. 6th International Symposium on Brain Edema, Tokyo, November 7-10, 1984 (BEST '84)
6. Wright DC, Yen MH, Nakagawa H, Blasberg RG, Patlak CS, Pettigrew KD, Fenstermacher J : Brain response to injury and dexamethasone: Reduction of extracellular space and spread of edema fluid. American Association of Neurological Surgeons (AANS), San Francisco, CA, April, 1984
7. Nakagawa H, Blasberg RG, Fenstermacher JD: Dexamethasone effect on [125I]albumin distribution in experimental RG-2 gliomas and Adjacent brain. The Sixth International Symposium of Brain Edema, Tokyo, Nov., 1984.
8. RG Blasberg, H Nakagawa, MA Bourdon, DR Groothuis, CS Patlak, DD Bigner: Regional localization of a glioma associated antigen defined by monoclonal antibody (Mab) 81C6. The thirtieth annual meeting of the American Academy of Neurology, San Diego, CA, USA, 1984,4.
9. H. Nakagawa, M. Yamada, K. Ikenaka: Basis for clinical intrathecal use of 5-fluoro-2'-deoxyuridine (FdUrd) in meningeal carcinomatosis. Sixth international congress on anti-cancer treatment. 1996, 2.6-9, Palais des Congres, Paris, France.
10. Nakagawa H, Yamada M, Iwatsuki K, Maeda N, Shimizu K, Ikenaka K:

Experimental study and clinical intrathecal use of 5-fluoro-2'-deoxyuridine (FDURD) in the meningeal dissemination of malignant tumor.

Thirty-Third Annual Meeting of American Society of Clinical Oncology (ASCO), Colorado Convention Center, Denver, Colorado, May 17-20, 1997.

11. Nakagawa H, Tsuzuki T, Hirohashi M: Antitumor effects of BOF-A2 on experimental glioma (203 glioma) and 5-fluorouracil distribution in subcutaneously and intracerebrally implanted 203 glioma and in ethylnitrosourea (ENU)-induced glioma. American Association for Cancer Research (AACR) 89TH Annual meeting, March 28-April 1, 1998. New Orleans, Louisiana. Abstract # 1527.

12. Nakagawa H, Maeda N, Tsuzuki T, Yamamoto H, Yamada M, Fukushima M, Ikenaka K: Intracavitary chemotherapy with 5-fluoro-2'-deoxyuridine (FdUrd) in the malignant brain tumors. 34th Annual Meeting of American Society of Clinical Oncology, Los Angeles, CA, May, 1998

13. Nakagawa H: Combined chemotherapy with methotrexate (MTX) and 6-thioguanine (6-TG) for the treatment of mouse meningeal carcinomatosis (MC) resistant to MTX. The 90th annual meeting of AACR, Philadelphia, PA, USA, April, 1999.

14. Nakagawa H, Isaka T, Miyahara E, Suzuki T, Wada K, Kodama K, Hourai T: Evaluation of intermittent chemotherapy with cddp after brain surgery in patients with metastatic brain tumor from lung cancer .

36th Annual Meeting of American Society of Clinical Oncology, New Orleans, Louisiana, May, 2000.

15. Nakagawa H, Miyahara E, Wada K, Higashioka H, Tamura M: Surgical treatment of metastatic brain tumors from non-small cell lung cancer :Evaluation of postoperative intermittent chemotherapy. The 12th world congress of neurosurgery, Sydney, Australia, September, 2001

16. Nakagawa H, Fukushima Y, Tamura M, Itoh K: Basis of intrathecal administration of Y-27632, a specific ROCK inhibitor, in neoplastic meningitis. 94th Annual Meeting of American Society of Cancer Research, Washington DC, July, 2003.

17. Nakagawa H, Fukushima Y, Tamura M, Yoshioka K, Itoh K : Intrathecal or intracavitary administration of sodium butyrate to treat neoplastic meningitis and malignant glioma. 95th Annual Meeting of American Society of Cancer Research, Orlando, USA, March, 2004

18. Nakagawa H, Tamura M, Fukushima Y,: Continuous intrathecal chemotherapy with 5-fluoro-2'-deoxyuridine (FdUrd) in treatment of leptomeningeal carcinomatosis. 40th Annual Meeting of American Society of Clinical Oncology, New Orleans, USA, June, 2004
19. Nakagawa H, Tamura M, Fukushima Y, Majima S, Yoshioka K, Itoh K : Clinical trial of continuous intrathecal or intracavitary infusion of sodium butyrate for leptomeningeal carcinomatosis or recurrent malignant glioma. 96th Annual Meeting of American Society of Cancer Research, Anaheim, CA, USA, April 16-20, 2005
20. Nakagawa H, Yoshioka K, Itoh K : Intrathecal or intracavitary administration of sodium butyrate in patients with malignant glioma-Basic research and Clinical trial. 17th International Congress on Anti-Cancer Treatment (ICACT), Paris, France, January 30~Feb.2, 2006.
21. Nakagawa H : Experimental study on the effect of intracarotid recombinant IL-2 on brain capillary permeability of Gd-DTPA in ENU-induced rat glioma model-dynamic study using animal MRI system- 97th Annual Meeting of American Society of Cancer Research, Washington DC, USA, April 1-5, 2006
22. H Nakagawa, M Yoshida, T Motozaki, K Yoshioka and K Itoh: Clinical results of continuous intrathecal or intracavitary administration of sodium butyrate for patients with recurrent and progressive malignant glioma. Experience with 23 cases 43rd Annual Meeting of American Society of Clinical Oncology (ASCO), June 1-5, 2007, McCormick Place, Chicago, IL, USA
23. Hidemitsu Nakagawa: Symposium:Recent advance in metastatic brain tumor therapy.; New Clinical Trials for Leptomeningeal Carcinomatosis. The International Congress of Surgeons. 17th Joint Congress of Asia & Pacific Federations & 53rd Annual Congress of the Japan Section, June 9~10, 2007., Kyoto, Japan
24. Nakagawa H, Kimura A, Yoshida M, Motozaki T, Yoshioka K, Itoh K.: Evaluation of immunoreactivity of monocarboxylate transporter (MCT) 1 in recurrent and progressive malignant glioma(MG): Speculation of the favorable factor in immunoreactivity in the response to the continuous intrathecal infusion of sodium butyrate (NaB). April 12-16, 2008, San Diego, Ca
25. Nakagawa H, Yoshida M, Shindo M, Nishiyama H, Motozaki T, Yoshioka K, Itoh K.:Correlation between immunoreactivity of monocarboxylate transporter 1 in malignant glioma and tumor response to continuous intrathecal infusion of sodium

butyrate , ECCO15-ESMO34, September 20-24, Berlin, Germany,2009

26. Nakagawa H, Yoshida M, Shindo M and Nishiyama H, Ri T and Motozaki T :
Myelin basic protein in malignant brain tumour-source of increased myelin basic protein in cerebrospinal fluid. EACR 21,Oslo, June 26-29, Norway, 2010
27. K. Itoh, K. Yoshioka, H. Nakagawa:Sodium butyrate inhibits glioblastoma in vasion both in vitro and vivo. 50th Annual Meeting of the American Association for Cell Biology. Philadelphia, PA, December 11~15, 2010
28. Nakagawa H, Yoshida M, Shindo M, Nishiyama H, Yamada M, Motozaki T ¹⁾, K Yoshioka and K Itoh ²⁾ , Intrathecal Sodium Butyrate for Neoplastic Meningitis- Experimental Study and Clinical Trial Stockholm, Sweden, September 23~27, 2011.
29. Nakagawa H, Yoshida M, Shindo M, Nishiyama H, Ri T, Motozaki T, Tamura M and Yamada M: Experimental trial of combined chemotherapy of intrathecal methotrexate with oral 6-thioguanine in mouse meningeal carcinomatosis resistant to methotrexate. EACR 22 - 22nd Biennial Congress of the European Association for Cancer Research,07-10 July 2012, Barcelona, Spain
30. Hidemitsu Nakagawa, Kazuyuki Itoh: Sodium butyrate induced cellular senescence and inhibited invasion of cancer cells with distinct mechanism. AACR2013, April 6-10, Washington DC, USA
31. Hidemitsu Nakagawa, Masahiro Shindou, Satoru Sasagawa, Kazuyuki Itoh: Sodium butyrate induced cellular senescence, inhibited invasion and modulated cellular metabolism in glioblastoma cells. AACR2014, April 5-9, San Diego, USA
